"Michelle sparks conversation and gets people thinking!"

PRAISE FOR DR. JANNING

"Michelle is a warm and engaging speaker, and welcomes anyone with an interest in better understanding and building the world around them to learn from her vast expertise in sociology."

Shelby Blessing, AIA, Senior Associate/Design Architect -- Page

"Michelle can captivate any audience with her engaging stories and deep knowledge of systems, design, and our social world. You will leave feeling like you just took the best class you've ever had."

Lina Menard, MURP, Sustainable Homes Professional -- StudioWEBSTER

Bonus Program Available:
What Do I Do with all of my Stuff?!

POPULAR PROGRAMS

Available for In-Person Presentations, Virtual Presentations, Keynotes, Breakout Sessions, General Sessions, Workshops (half day & full day)

Learn how to get good data to inform the design of products, places, systems, or services using an empathetic and human-centered approach. Become an expert at incorporating diversity, equity, inclusion, and access into your data-gathering and design processes. Design more socially sustainable products and systems!

Gain insights into how today's workplaces and homes are (and are not) meeting people's needs. Discover the surprising impacts of digital and physical spaces and tools on productivity and workplace culture, and on interpersonal relationships. Workshop work-life boundaries to support your optimal work-life balance!

Uncover how technology is shaping people's roles and relationships at work, at home, and in our increasingly connected world. Strategize how best to meet people's needs given current and future patterns of life and love on digital platforms. Find out more about your own digital preferences and patterns, too!
